

# KulaTu Member guide

## 1. Reset your password

Request a password reset, then finish the flow from the recovery callback.

Route: /auth

Deep link: kulatu://auth

- Steps

- 1. Open the auth screen and switch to **Sign in** with **Email** selected.
- 2. Enter your email address.
- 3. Tap **Forgot password?**
- 4. Open the email on the same device when possible.
- 5. Continue through the callback and choose a new password.

- Tips

- Use the same device so the callback can return cleanly to the app.
- If the callback opens in a browser first, use the **Open KulaTu** button.

- CTA

- Start from the auth screen: Open KulaTu auth
