

KulaTu New user guide

1. Find nearby spots

Use location-aware discovery to browse the closest verified food spots.

Route: /(tabs)

Deep link: kulatu://

- Steps

- 1. Open Discover.
- 2. Tap the location selector at the top of the screen.
- 3. Choose **Use my current location** or a named area.
- 4. Apply category, price, or open-now filters if needed.
- 5. Switch between **List** and **Map** to compare the same nearby results.

- Tips

- If you deny location permission, switch to a named area instead of leaving the screen.
- Use the spot detail page when you want a shareable public link.

- CTA

- Launch the Discover screen: Open Discover

2. Create an account

Sign up with email or phone and get into KulaTu cleanly.

Route: /auth

Deep link: kulatu://auth

- Steps

- 1. Open the auth screen.
- 2. Choose **Use email or phone** if you do not want a social sign-in.
- 3. Pick **Create account**.
- 4. Enter your email and password, or use a supported Kenyan phone number.
- 5. Submit the form and follow the next instruction shown by the app.

- Tips

- Use a device you control for email reset and callback links.
- If you are using email sign-up, check for confirmation mail before trying to sign in.

- CTA

- Open the real auth screen from this guide: Open KulaTu
